ey Due Boiler Survey due 11,23.

At the end of February last the Lisbon Surveyor wrote he had seen the Charterers, Messrs. Sociedade Corretera, Ltd., and they had promised to advise him within a few days as to what could be done in regard to the above survey. In the circumstances the Committee deferred consideration of the case for a short time, pending the receipt of a further communication from the Lisbon Surveyor in regard to the matter.

On the 7th ultimo the Lisbon Surveyor stated the vessel was about to sail from London for Lisbon and that on her arrival he expected to be requested to hold the above survey.

The Lisbon Surveyer now writes, however, that the Owners inform him, through Capt. Madeiros, their Superintendent Captain, that as the vessel will only make one more voyage before being handed back to Transportes Maritimos de Estado, they do not intend to hold the Boiler Survey or go to any further expense with her, and that after this voyage the vessel will be laid up.
