

List of Spare Gear

delivered for Burmeister & Wain's order "Amerika I", Engines  
Nos. 696 & 697.

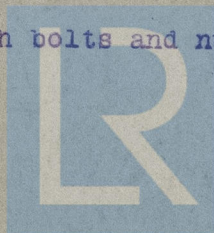

---

For the main Diesel Engines.

- 1 cylinder cover.
- 3 upper-crankshaft-brasses with bolts and nuts.
- 4 bottom crosshead brasses with bolts and nuts.
- 1 pair of main bearing brasses of each size with bolts and nuts.
- 1 piston complete with piston rod.
- 3 sets of piston rings.
- 12 exhaust valves with seats, spindles, springs etc. ready for use.
- 3 loose seats for exhaust valve spindle.
- 2 starting valves with boxes complete.
- 6 fuel valves with boxes complete.
- 3 loose spindles for fuel valves.
- 6 loose bottom pieces for fuel valves.
- 1 conducting roller of each size with taps.
- 1 set of spareparts for the fuel pumps.
- 1 complete set of springs for one motor.
- 1 set of taps with nuts for one cylinder cover.
- Leather packings and packing according to agreement.
- 2 spindles for overflow-valves.
- 1 set of air compressor valves with seats and springs.
- 1 set of piston rings for air compressor of each size.
- 1 cooling coil for main air compressor.
- 1 set of springs for main air compressor.
- 3 thermometer pieces for cooling water outlet from exhaust valves.
- 1 set of scraping rings for piston rods.

For auxiliary Diesel engines:-

- 1 pair of crank shaft brasses with bolts and nuts.

- 1 pair of main bearing brasses with bolts and nuts.
- 2 sets of piston rings.
- 4 exhaust valves with seats.
- 2 loose seats for exhaust valve spindle.
- 2 fuel valves with seats.
- 2 fuel valve spindles.
- 1 spindle for bypass valves.
- 1 complete set of springs for one motor.
- 1 set of valves for fuel pump.
- 1 set of taps with nuts for one cylinder cover.
- 1 set of air compressor valves.
- 1 h.p. cooling coil.
- 1 set of piston rings of each size with intermediate rings for  
air pump.

For the auxiliary machinery:-

- 1 complete set of valves for auxiliary air pump.
- 1 " " " piston rings " " "
- 1 pair of crosshead brasses for " " "
- 2/2 over-brasses for crank shaft for " " "
- 1/2 set of valves with seats for one bilge pump.
- 1/2 set of valves with seats for one sanitary pump.
- 1 wing with 2 guide-blocks for ballast pump.
- 1 filter basket for lubricating oil pumps.
- 1 spring for each size of safety valve.
- 1 valve spindle of each size for heads of air bottles.
