

STEAMER "MARIE REPPEL"

Mr. Latta at the Ministry of Shipping, in reply to inquiry regarding the above Steamer, states that if the necessary work for classification can be done with very little expense during the re-conditioning of the Steamer at the present time, the Ministry will be glad if this can be arranged.

If, however, much expense will be involved in the survey for classification they do not wish to proceed in the matter. Mr. Latta will be glad to learn which course is adopted.

W. Marshall
