Str  
s/s. "Parklands."

Gls. Rpt. 34810

This vessel was built in Germany in 1905 under the classification of Germanischer Lloyd, she became a prize of war & was bought by the present owners who now wish to have her classed with this Society.

The machinery has been opened out & submitted to Survey for classification it was found to comply with the Rules of this Society with exception that the crank shaft is about  $\frac{1}{16}$ " smaller in diameter & the thrust shaft  $\frac{3}{16}$ " smaller.

It is submitted that this might be approved & a record of LMC 2.15. 185th assigned, when the hull has been approved.
