Dear Mr. Ritchie

Re S. S. "Vikingen".

The cables fitted for accⁿ forward & for accⁿ crew space was 4/.064 (2 in parallel per pole) & not one as stated. There were all sorts of extras fitted on this vessel when nearly finished & the two extra pairs of cables were put in at the last moment.

Will you be good enough to make the addition of "per pole" against the no of cables in each case on the last entry Report. I will alter our copy here.

With kind regards

Yours sincerely

W. T. Badger.
