Water Tube Boilers

Fitted for oil fuel 11,22 F.P.above 150° F.

The Annual Survey of the Water Tube Boilers of this vessel became due in November last, but the Owners now state that as she is only employed in Rangoon Harbour for fire and salvage purposes, they do not consider it necessary to maintain her classification in the Society's Register Book.

In the circumstances, the Classing Committee, who had the case before them on Tuesday, 13th instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

15th May, 1924.
