Received by Chief Ship Surveyor 12.1.06

Received from Chief Ship Surveyor \_\_\_\_\_

VESSEL'S NAME St. Steam Trawler "Sole of Night" Report Hull No. 17457

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey First entry

It is submitted that before this case receives the consideration of the Committee the Hull Surveyors should be requested to state the initial letters of the Proving Houses at which the anchors and cables of this vessel were tested, as there can be no doubt that these marks were as discernable on the anchors and cables as the certificate numbers.
