s.s.Nag.No.1-18

* LMC 7,19
TS 5,18

W.H.

The screw shaft became due for survey in May,
1920, and the Boiler in July, 1920.

No reply has been received from the Owners to
communications addressed to them from this Office respecting
these surveys, and on Friday, the 7th instant, the Classing
Committee had before them a letter, which was received in July
from the Kobe Surveyors, in which it was stated that they had
received no reply to letters addressed by them to the Owners
on this subject on the 23rd April and 21st May.

In the circumstances the Classing Committee
decided to expunge the vessel's class with a red line (10-21),
indicating non-compliance with the Society's Rules.

W.H.
13th October, 1921.
