due Boiler Survey due 4,19  
Screwshaft Survey due 4.21

This case has received the consideration of the Committee from time to time and in June last the Bordeaux Surveyors stated the vessel was in the service of the French Government, but upon derequisitioning she would be sold by the "Liquidation des Stocks" and the sale duly advertised in the Shipping Journals. In the circumstances the Committee deferred action in the matter subject to intending purchasers being informed that the vessel retained her class in the Register Book on the understanding that the overdue surveys would be held without delay, and a letter was written to the Paris Office requesting that the Minister of Marine should be informed accordingly and asked to give the necessary instructions in the matter.

In reply to further enquiry a letter has now come to hand from the Society's Paris Office intimating that the sale of the vessel will take place in a short time at Toulon and that the name and address of the new Owners will be duly forwarded.
