A CONVENIENT DRY DOCK  
FOR REPAIRING VESSELS.

*Amlwch Port.* 7th October 1920. 19  
ANGLESEY.

The Secretary,

Lloyds Register of Shipping,

201 Tower Buildings,

Liverpool.

Dear Sir,

S.S. "Dunleith"

We are in receipt of your letter of yesterday.

As the Damage to this Vessel has already been Surveyed by your Society's Surveyor at Aberdeen, We cannot understand why further Expense should be incurred by having another Survey.

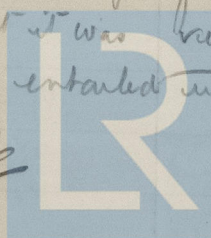

Could you let us know what the Fee would be for these Damage Repairs as we do not wish to have <sup>a</sup> repetition of the dispute which we had over the "Eleth". \*

Yours Faithfully,

*Wm Thomas Sons*

\* Lia report N° 70780 - Owners thought fee charged excessive, but it was explained <sup>verbally</sup> to them that it was very reasonable considering the amount of time entailed in the Surveyors visits to Amlwch.
