by Chief Ship Surveyor.....

Received from Chief Ship Surveyor.....

VESSEL'S NAME "DUNLEITH" Rpt. Lon. No. 107701 A

Remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/32.)

The 4th .S.S. No.1, became due 6,39.

The Owner recently wrote that the vessel was being used as a coal hulk for the duration of the fishing season, after which she would probably be dismantled, and in reply to enquiry he further writes he is not disposed to maintain her classification.

He intends, however, to keep the vessel in good repair for the present so that if need arose she might qualify for reclassification.

It is submitted for consideration whether the class should now be withdrawn, from the Register Book, and three dots (...) inserted in lieu therefore, indicating withdrawal of class at Owners' request.
