The Special Survey No. 2 which became due in November 1919 has been partly held, and to complete the same the bunkers require to be examined, the double bottom tank examined internally and tested, the freeboard verified, and the screw shaft, propeller, etc. examined.

The Classing Committee had before them on the 23rd August last a letter received from the Bilbao Surveyors, in which they stated that they did not anticipate the Owner would be prepared to submit the vessel for survey until the end of September in consequence of fish fetching high prices.

In the circumstances the Committee deferred action for one month.

No replies have been received to telegrams and letters addressed to the Owner by the Bilbao Surveyors, and the Classing Committee, who had the case again before them on Tuesday, the 11th instant, decided to expunge the class with a red line (*10-21*), indicating non-compliance with the Society's Rules, and the Owner has been informed accordingly.
