

of Ship Surveyor

Received from Chief Ship Surveyor

22 APR 1921

AME Steel S.S. "ERNIO". Rpt. Bbo. No. 5781.

is of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

vey

The special survey No.2, due 11.19, has been partly held and a proposal to complete the same within the next 2 months was agreed to on the 29th December last.

The Bilbao Surveyors now report the vessel has been placed on a hard, bottom and rudder cleaned and coated, and the special survey further advanced.

To complete the survey, the bunkers require to be examined, and the double bottom tank examined internally and tested, and it is stated this will be done in June next. *Freeboard to be verified see letter*

It is submitted for consideration whether action might be deferred provided the special survey be completed without fail in June next, as now proposed.

19. 4. 21.

The Surveyors should be informed it would appear that in addition to the items requiring to be done to complete the survey, the freeboard requires to be verified, and they should be requested to state if this is so.
