Dear Sir,

With regard to the Steam Trawler "JOULE", ex "John Fisser", which vessel is now going through survey for classification at this port, it is noted that the boiler and shafting have been made under the survey of this Society. It is therefore concluded that the machinery has been constructed and installed under this Society's inspection, but I shall be glad to know if this is so.

The boiler bears the mark:-

14188. Lloyd's test, 360 lbs P.MCG. 28/3/18.

The crank and thrust shafting bears the mark:-

Lloyd's W.G.M. 30-7-17, 563.

I am, Dear Sir,.

Yours faithfully,.

*P. Fitzgerald.*
