Lloyd's Register of Shipping
17 Battery Place
New York, N. Y.

S. S. "ROBIN GOODFELLOW"

Dear Sir:-

With reference to our Report No. 933 on the "ROBIN GOODFELLOW", we beg to state that the thickness of the second deck stringer angle amidships should be 11.1 lbs. instead of 9.8 lbs., and the workmanship is satisfactory which we omitted to state in the body of the Report.

Yours very truly,

W.P. Collins

WC/N.
