ENCLOSURE.

24th June, 1924.

Dear Sirs,

I have to acquaint you that a freeboard report has been received from the Society's Surveyors at Greenock and freeboards have been assigned in respect of the Motor Vessel "ATAGO MARU", Messrs. Lithgows' Yard No. 762.

As the vessel is intended for Japanese Owners, it will be necessary for Japanese freeboards to be assigned on the vessel's arrival in Japan, and I therefore enclose a copy of the freeboard report for your guidance in dealing with the case.

I have to add that the scantlings have been approved for an extreme summer load draught of 28'-3".

I am, Dear Sirs,

Yours faithfully,

Assistant to the Secretary.

The Surveyors,

K O B E.
