

MESSRS. HARLAND & WOLFF'S YARD NOS. 1034-5

It is submitted the Belfast Surveyors be advised that it is noted that the builders are proposing to close the tonnage-openings of the above vessels and to carry the bulkheads watertight to the shelter deck. If this is done a summer freeboard corresponding to a moulded draught of about 26'-9", i.e.  $5\frac{1}{2}$  greater than the draught as an open shelter-decker, could be <sup>assigned</sup>~~arranged~~.
