The Surveyor,  
Lloyds Register of Shipping,  
Prudential Buildings,  
George Street, Plymouth.

Dear Sir,

Tyne Ferry No. 691.

With reference to the Steering Chain for above named Vessel, this has been used from a quantity of Chain supplied by Mr. Charles Homes of Halesowen which we had in stock, and which had been Bureau Veritas' tested in January last.

As explained to you, the Certificate covering the full quantity of this Chain was handed over to the Owners of the Vessel on which the other part was used, and in consequence we have obtained from the Makers the enclosed letter of confirmation that same was tested by Bureau Veritas and Lloyds Certificate No. 7738 issued.

We understand you will accept this letter in lieu of Certificate as we are not able to obtain a duplicate, for
