

Steel S.S. Trawler "KARABIGHA", No. 58517 in Register Book,  
built at Aberdeen in 1918 for the Admiralty, and classed  
originally 100A1 Steam Trawler".

-----

This vessel does not appear to have been surveyed  
by the Society's Surveyors since her first classification,  
and the class has been omitted.

A cablegram has now been received from the Society's  
Surveyor at Constantinople stating that the new Owners have  
requested a general examination afloat, with a view to re-  
classification.

It is submitted the Surveyor might be informed that  
to render this vessel eligible for re-classification in the  
Society's Register Book the full requirements of the Special  
Survey No. 3 must be complied with, and the vessel placed in  
a thoroughly good and efficient condition to the Society's  
entire satisfaction.

It is further submitted the Surveyor might be  
authorized to carry out this Survey, if so requested by the  
new Owners of the vessel.

*Authorization noted.
