Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

18th October 1918.

Dear Sirs,

With reference to your report No. 10659 on the Yarrow Water Tube Boilers made by Messrs. Ruston Proctor & Co., Ltd., for a Twin Screw Minesweeper building by Messrs. Rennoldson & Co. (No. 199 vessel) which is under the supervision of the Society's Surveyors to the British Corporation, I have to inform you that the fee due for the Survey of these boilers during construction is £31. 8. 6, and an account has now been rendered to the Admiralty for this amount, which on payment will be credited to your port.

This fee should therefore now be passed through your Rough Fee and Debit Books in the usual way.

I am, Dear Sirs,

Yours faithfully,

Secretary.,

The Surveyors,

GRIMSBY.
