VESSEL'S NAME

*Alfred Hoyer Dudge "Naquagie"*

Low No. 74565<sup>a</sup>

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/82.)

Nature of Survey

*1st 22 Nov*

When due

*10-11*

The 1st S.S.No.1 became due in October last, and the year of grace will expire at the end of October 1912.

The Owners now state that as the vessel is surveyed by the Government Official, they do not see any advantage in continuing her classification in the Society's Register, particularly considering the large expense involved in sending her to Melbourne, which would be the nearest port.

It is submitted the vessel's class be omitted from the reprint of the Register Book.
