25252. "LIBRA". With reference to my letter of the 11th instant respecting this case, I have to inform you that it now appears from a communication which has been received from the Society's Surveyors at Grimsby that the Owners Superintendent had decided to send the vessel away for one trip before putting the safety valves in order, but arrangements have been made for this matter to be attended to on the vessel's return. In the circumstances action has been deferred by the Committee pending the receipt of a further report on the completion of the Survey.
