

Received by Chief Ship Surveyor

Received from Chief Ship Surveyor

15 MAR 1921

VESSEL'S NAME Steel S.S. "JOTUNFJELL". Rpt. Lon. No. 84108a

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

The 1st.S.S.No.1, due 11.19, has been partly held by the examination in dry dock.

The Christiania Surveyors now forward a letter from the Owners as follows:-

In reference to your letter dated the 14th. ultimo, we beg to "inform you that this vessel was transferred to the Norsk Veritas Class during her stay at Arendal for the Periodical Survey.
"We have all our ships insured with the mutual insurance companies and therefore we are also members of the Norsk Veritas.
"It is therefore natural that we have our newest ships specially "classed with the Norsk Veritas. We have had most of our vessels "classed with Lloyd's Register, and we take the opportunity to say "that it is not because we are not absolutely satisfied with that "institution that we now class them with the Norsk Veritas, but "only for the above mentioned reason. We have always been very "satisfied with Lloyd's Register, which has attended to every- "thing in a most careful and conscientious manner".

It is submitted the vessel's class be omitted from the reprint of the Register Book.
