SURVEYORS:

MAURICE RITSON

AND

R. S. ROWNTREE.

A. S. MANTELLI,

Surveyor, for Steel Testing

Sir,

In reference to the steamer " **PRIMOLA** ", s.s. No 1, building by Flli MIGLIARDI at Savona, we have to acquaint you that the equipment of chain cables, anchors, and ropes was ordered from England during last year and corresponds with the requirements of the letter " **R** " in the equipment table. =

Since then the width of the deck houses has been increased to admit of the extra accommodation required by the seamen's Union. =

In consequence the equipment number now works out at 18679 = S . =

The particulars of the anchors and chains ordered are as follows: -

	Cwts	Qrs	Lbs
3 Bower anchors collective weight	103.	1.	14
Stream "	9.	2.	22.
Kedge "	4.	3.	18.

240 Fms chain cable I 12/16" dia. -

As the equipment number is only slightly above the letter " **R** " grade and as the anchors are rather heavier ^{than} are required by that grade we shall be glad to know if the equipment as ordered may be accepted. =

The owners ask us to say that if this equipment requi-

res to be replaced it will cost 50 % more than last year.-

We are, Sir,

Yours faithfully
