This trawler became due for Boiler Survey in January last, but the Rio de Janeiro Surveyor states that he has been informed that the vessel has now become a unit of the Brazilian Navy, and in the circumstances it is not desired to maintain her in the Society's Classification.

The case received the consideration of the Classing Committee on Tuesday, 22nd instant, when it was decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
