Rio de Janeiro, 12th June 1924.

WILLIAMSON  
ENGINEER  
SURVEYOR.

LLOYD'S REGISTER  
Recd. 14 JUL 1924  
Ans. *24*

Dear Sir,

Further to my letter of the 25th March last, respecting the steam trawler "SANTA MARIA", I have now to acquaint you that this vessel on her return to this port was taken over by the Brazilian Government and incorporated into the Navy, in the Inspection of Fisheries Department.

I have to day had an interview with the Naval Officer in charge of this department with regard to the carrying out of the boiler survey on the vessel and he informed me that as the vessel is now incorporated into the Navy there will be no further need of retaining her class in the Society's Register Book.

I am, Dear Sir,

The Secretary,

Lloyd's Register of Shipping,  
London.

Yours faithfully,

*A. E. Inman.*  
Surveyor to Lloyd's Register.
