Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

EC

13th December, 1926.

Dear Sirs,

S. I have to acknowledge the receipt of Mr. Common's letter of the 6th instant requesting to be supplied with copies of the test certificates regarding the line of shafting fitted on board the steamer "DUINO" for delivery to the Registro Italiano.

On reference to the first entry report on this case, the certificates in question are not attached, and it would therefore appear that they were not received at this Office with this report.

In these circumstances, perhaps you will kindly ascertain whether the forging reports of the shafting are still in your Office, and if not, you will be good enough to apply to the Society's Surveyor at Vienna for copies, as the originals appear to have been issued by him.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
TRIESTE.

Clerk to the
Classification Committee.
