## General Observations, Opinion as to Class, Recommendation, &amp;c.:-

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:- "to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1, 15," or "to remain as classed and to have record of survey, 1, 15, and the notations of ss No. 1-15 and ptnd 15, &c."

this vessel so far as now seen, is in good condition and eligible in our opinion to be continued as classed with fresh record of survey, 4-23, subject to main frames being specially examined at next annual survey, and to have notation of carrying oil fuel in D.B. & F.P. tanks F.P. above 150°F, when alterations have been completed satisfactorily.
