

repro Chr Ruthof's to No 420/424.

Submitted Mr. Ives he informed that
the weights given in Table 31 for $\frac{8}{16}$
 $\frac{9}{16}$ short link chain cable it will be
that the weight of the chain cables
called for these vessels is about equal
to weight required by the Rules for
chain cable $\frac{30}{64}$ " in diameter instead of
weight corresponding to its actual diameter.
In these circumstances it is
submitted these chain cables cannot be
used for the Figure 1.
