Particulars of Examination and Repairs (if any) General

When held, must be reported in detail and serially in the terms of the Rules. State clearly the nature, if any, and, in detail, the nature and extent of examinations and subsequent repairs. Repairs on the machinery (the cause of which must be stated) should be separated from repairs due to other causes; and all of any letters respecting this case.

Here the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose, and why they were not.

Was a damage report made by anyone else? If so, by whom?

Did you go inside each Main Boiler separately and make a thorough examination at this time?

Did you go inside each Donkey Boiler separately and make a thorough examination at this time?

For what reasons? No donkey boiler installed

Were the Main Boilers thoroughly examined?

In the absence of internal examination, were adopted by the Surveyor the thorough efficiency of those parts of each Boiler?

Were the Safety Valves of the Main Boiler?

To what pressure were they afterwards adjusted under steam? 120 lbs.

Were the Safety Valves of Donkey Boiler?

To what pressure were they afterwards adjusted under steam?

Were all the manholes, doors and their fastenings of the Main Boilers?

Were all the manholes, doors and their fastenings of the Donkey Boiler?

Were the drain plugs of the Main Boilers?

Were the drain plugs of the Donkey Boiler?

Were all the mountings of the Main Boilers?

Were all the mountings of the Donkey Boiler?

Were the Main Boilers drawn and examined?

Is it fitted with continuous liner?

Is an approved appliance fitted at the after end of the shaft to permit of it being efficiently lubricated?

Were the Main Boilers lagged?

Were the Main Boilers new?

Has it a continuous liner?

Is an approved appliance fitted at the after end of the shaft to permit of it being efficiently lubricated?

Were the Main Boilers lignum vitae or bearing metal of stern bush and top of after bearing of screw shaft?

State what arrangements have been made for its completion and what remains to be done? Completed

See over

P.T.O.

Conclusions, Opinion, and Recommendation:— No alteration in Class - the Boiler and Machinery, if any, is suggested to be made in the existing classification of the vessel's machinery in the Register Book, consequent upon this survey, and also required to be made in the records of the vessel's machinery, boilers, working pressures, &c.: thus, for example, B.S. 9, 1, B.&M.S. 9, 11, or L.L.C. 9, 11, being in a Good, Efficient and safe working condition.

Please see back for detailed report.
