BOMBAY

7168, 74, 75, 7306, 07, 10, 12, 23 As recommended.

7171 "WANIALDA" As recommended. I shall be glad if you will advise me how the case stands should the Boiler Survey not have been completed by the time this communication reaches you.

7311 "ASHBRIDGE" As recommended. In view, however, of the repairs which have been found requisite in this case to the bow plating in March and shell plating in April last and again at the inspection under review, the Committee consider the shell plating should be drilled as part of the 3rd S.S. No.3 at the first opportunity and I shall be glad if you will arrange to inform both the Owners' Agents and local Ministry of War Transport Authorities accordingly. You should also keep me advised of the arrangements made in regard thereto.
