Lloyd's Register of Shipping,

5, Alexandra Buildings,

Hong Kong, June 9th. 1919.

I enclose herewith the verification freeboard on the
Kong & Whampoa Dock Co's Hull No.567 "WAR DRUMMER".

It will be noted that from the official tonnage supplied,
ufficient has been considerably reduced from that allowed for
Preliminary Freeboard, and the corresponding reduction in
ard amounts to about 2½ inches.

This vessel has just been completed and the preliminary
ard of 4'-6½" has been lightly popped on the vessel's sides,
t when the final figures are assigned the vessel's marks may
aged at such port as convenient to the owners.

I am, Sir,

Your obedient servant,

John. S. Gardner

etary,

d's Register,

London.

Refusal to Refuse to Ship

2, Alexandria, Virginia,

Hans Kugle, June 24th, 1914.

I enclose a copy of a letter written by Mr. Wm. H. M. Williams, Director of the American Museum of Natural History, New York, to the Secretary of State, dated May 21st, 1914.

In this letter Mr. Williams states that he has been informed that

the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.

Mr. Williams further states that he has been informed that the American Museum of Natural History has received a number of specimens of the Indian Shad, which it is believed to be

the same species as the European Shad, and that they are therefore fit for market.
