17th March 1968

Messrs. Trinidad Leaseholds Ltd.,
POINT- A - PIERRE.

Attention Mr. L. J. Gray,
Actg. Marine Superintendent.

Dear Sir,

This will confirm the conversation I had with Mr. Raw and your goodself on 15th inst. in connection with minimum temporary repairs to your "DERE" to make her seaworthy to go to the U.K.

It was agreed that the cheapest possible way to effect a temporary repair was to fill No.3 Cargo Tanks with cement to top floors, fit new panting beams in all tanks and stiffen deck. The approx. cost of carrying out above work was estimated to be Ten Thousand Dollars (\$10,000.00)

It was understood by all concerned that above repairs will be gutted out completely when vessel undergoes permanent repairs required to enable her to maintain her Class.

Yours faithfully,
