

WALVIS BAY,

15th. November, 1934.

To Lloyd's Sub-Agents,
WALVIS BAY.

Further to my report dated 21st. September, 1934,
this is to certify that I have adjusted and tested the
Safety Valves of the Steam Whaler "GUN VII", and they are
now set to blow at 200 lbs per square inch.

.....*J. Hamiere*.....
Surveyor.
