

Toronto 16

It is concluded that two top end bolts & nuts & two  
bottom end bolts & nuts have also been included in the spare  
part placed on board in accordance with the Rule requirements  
but the Toronto Surveyor should confirm this & also give  
the dates of his visits when he examined the completion of  
fitting of sea connections, stern tube, screw shaft & propeller  
this has been omitted from his report.
