

FREEBOARD REPORT on the "FOO SHIN" ex "Inara"

It is submitted the Brisbane Surveyor be informed that as this vessel's old Life Certificate expired on 30.4.46 a Renewal Survey should have been carried out and not a Periodical Survey.

It is understood that a General Examination was carried out concurrently with the Freeboard Survey and it is therefore assumed the Surveyor is in position to forward a Report for a Renewal Survey (Rpt. C11(d)) and a reclassification of Marking form. On receipt of these new certificates will be issued valid for one year from the date of the general Examination.
