Allison Wilson Esq.,

Lloyds Register of British and Foreign Shipping,
HULL.

Dear Sir,

~~XXXXXX~~ In reply to your telephonic enquiry regarding the cable of above vessel, the 165 fathoms of 1" close link was specially supplied on our specification, and is the same as that put aboard an earlier vessel, the "ONWARD". It is a compromise between the two sections of your rules and suits the work of the vessel, which is actually a cargo steamer and fishing vessel, often combining these two states in a single voyage.

Trusting this explanation is sufficiently full, if not, shall be pleased to supplement it on a further question from you.

Yours faithfully,

W R Groves per J.H.
Engineer Superintendent.
