

RD REPORT on the

Belvedere

It is submitted the Trieste Surveyors be informed
from an estimate made in this Office, using
as the moulded depth to the 2nd deck, the
summer moulded draught corresponding to the
keelboard of 1290" fm ($4-2\frac{3}{4}$) assigned by the
Registro Italiano is 24-9 $\frac{3}{4}$, and they should
therefore, verify the figure of 24-7 $\frac{1}{2}$ given on their
at C 12(a) as the maximum draught and advise
his office when the present record in the Register
book will be amended.
