Messrs. Hall, Russell & Co., Ltd.,
York Place,
Aberdeen.

Dear Sirs,

We thank you for your letter dated
24th January, 1949 and Engine No. CS.55094 is an 18 H.P.
Lister Marine Auxiliary Engine which we did not supply to
you.

According to our records, this machine
was supplied to Messrs. Harland & Wolff, Ltd., at Govan and
was fitted to the vessel "La Hague" for the Compagnie Generale
de'armements Maritimes.

For further clarity, there were three
sets supplied to this same order and if our records as to
the particular ship are incorrect, the names of the other two
vessels are the m.v. "Morbilian" and "La Heve".

We trust these details will enable you
to satisfy Lloyds.

Yours faithfully,

P.P. R. A. LISTER (MARINE SALES) LIMITED.
