SUNDERLAND

25th March 1931.

THOMAS DRUMMOND SCOTT

Messrs. H. Rue & Co, Ltd., London., survey two sets of main engine and shafting constructed under the inspection of the Society's Surveyor at Belfast in 1915 in accordance with the Society's Rules, together with 2 lengths of new intermediate shafting and now intended for the vessel Yard No.68, building by Messrs. Ganz & Co., Susak.

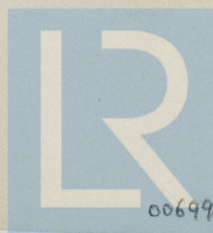

The working parts of the Engines and shafting in question have now been opened up and examined by the undersigned and found in good order, and if fitted on board in accordance with the Society's Rules, will in my opinion be eligible for notations of N.E. 15 (New Engines 1915) refitted (with date of fitting on board).

T.D. Scott
