P.S. I take this opportunity to point out that the Boiler Survey will become due at the end of the present month and the Screwshaft Survey at the end of next month.

Special Surveys.—To entitle ships to retain the class assigned to them in the Register Book, they are to be subjected to Special Surveys in accordance with the requirements set forth in **Sections 2 and 3, Periodical Survey Requirements.** These Surveys become due at 4-yearly intervals, the first 4 years from the date of build or date of Classification Survey, and thereafter 4 years from the date of the previous Special Survey.

Period allowed for completion of Special Surveys.—When it is inconvenient for Owners to fulfil all the requirements of a Special Survey at its due date, part only of the survey need then be carried out, provided, in the case of the first Special Survey of new ships, the remainder of the survey be completed within 12 months from the due date, and, in the case of subsequent Special Surveys, the survey be completed within 6 months from that date.

Special Surveys which are commenced prior to their due date must not extend over a period greater than 12 months or beyond the times prescribed above.
