

S.S. "VILLE D'AMIENS".

---

The repairs carried out to the port boiler of this vessel have already been under consideration, Mr. Davies, the Society's Surveyor at Havre, having expressed an opinion in regard thereto.

Mr. Davies now forwards a letter in which he states that the Owners are submitting the matter of depreciation to the boilers to arbitration, and request a copy of Barry Report No. 19449. He desires to know whether he may comply with the Owners' request.

It is submitted that in matters of this kind, where an Owner desires to have a copy of any of the reports on a vessel, such copies should only be issued from this Office, and Mr. Davies might be instructed to forward the Owners' written request for the same, when the matter will have immediate attention.
