Lloyd's Register of Shipping.

71, Fenchurch Street, E.C. 3.

SECRETARY.

12th May, 1925.

Dear Sir,

S.S. "VILLE D'AMIENS".

I was duly favoured with your letter of the 6th instant, and carefully note what you say regarding this case; and in reply I am directed to state that, while the repairs carried out to the port boiler of this vessel were quite satisfactory they do not affect the classification of the vessel, and further that, while the figure you mention as to the estimated material depreciation in the value of the boiler appears to be reasonable, it is considered that in future it will be better for you not to enter into questions of depreciation which are subject to rather wide and indefinite interpretation and are better left to the commercial interests concerned.

I am, Dear Sir,

Yours faithfully,

Secretary.

J.L.Davies, Esq.,

HAVRE.
