J.P. BEECHER, Esq. Lloyd's Agent at Havre, survey the S/S
"VILLE D'AMIENS" on the 24th November 1924 and subsequent dates
whilst lying afloat at Havre for damage on the port boiler.

The Port combustion chamber was found slightly deformed
and it was recommended that 6 tubes be renewed. A certain
number of rivets were found to be strained and it was recommen-
ded that these be renewed or made good as necessary.

These recommendations have been carried out and satis-
factory test made on the Boiler.

The repairs now effected have been carried out with the
approval of the Owner and accepted as permanent repairs.
