# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

Enclosure.

30th October, 1950.

Classn.

Dear Sirs,

With reference to the Screwshaft Survey, which became due in August 1949, in the case of the Steamer "KRAKOW", I beg to acquaint you that a proposal to carry out this inspection at the dry-docking of the vessel in April last was approved that month. No report on this examination has yet been received from the Society's Surveyors, however, and in the circumstances I shall be obliged if you will kindly let me know what further arrangements you propose making in the matter.

I have to add that the air pipes to Nos. 1 (port and starboard) and 2 (port side) double bottom tanks were recommended by the Gdynia Surveyors in August 1949 to be renewed by the end of February last and I shall also be glad to learn what arrangements have been made for this to be dealt with.

I take this opportunity to enclose the usual communication regarding the Special Survey which will become due at the end of the present month.

Yours faithfully,

Clerk to the  
Classification Committee.

Messrs. Gdynia-America Shipping Lines  
(London) Ltd.,

Coventry Court,
