

S.S. "SEATTLE".

It is submitted the Newcastle Surveyors be informed that no report appears to have been received from the Society's Surveyor at East London on this vessel, also that there are no plans of the vessel in this Office. The plans mentioned in the correspondence with Messrs. Eggar Forrester & Parker (which correspondence is now in their possession) were it is thought returned to that firm, but this fact can be verified by the Surveyors from the copies of letters.
