S.S. "SEATTLE" No. 25908 in R.B.

"Clipp M"

A representative of Messrs. Walsham Bros. & Co. called at this Office regarding the above vessel. He stated that they had been requested by the High Commissioner for the Union of South Africa to take steps to have this vessel classed with this Society, and he wished to ascertain what steps were necessary to effect this.

He was informed that he should first obtain plans of the vessel in order that they may be compared with the Society's Rules, and if they were found to be satisfactory the Society's Surveyors would then be instructed to survey the vessel and report upon her condition. As no plans appear to be available, it was suggested that he should communicate with the Builders, Messrs. Wood, Skinner & Co. and obtain the plans from them, or request them to forward the plans direct to this Office, when they would be examined as required, and he would be communicated with later.
