

Surveyor examine all the manholes, doors and their fastenings of the Main Boilers?

Yes
Done

, and of the Donkey Boiler

, and of the Donkey Boiler

S. S. "Seattle"

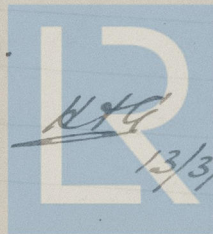

hwc 72858
72859

This vessel was built at Newcastle in 1911. not under the Survey of this Society. The machinery and boilers have been opened up for examination and the first entry report received, from which it appears the particulars of the machinery and boilers comply with the rules and requirements of this Society for a working pressure of 180 lbs. The screw shaft fitted with a continuous liner has been examined and found satisfactory.

It is submitted that
this vessel is eligible for
THE RECORD. L.M.C. 2.20 F.D.
