

Two 100 Ton Wood Barges AMP40 & AMP41..

-----

Each of these vessels has a Donkey Boiler, which was built under the survey of the Society's Surveyors, fitted on board.

No reports on these boilers have been received from the Valparaíso Surveyor.

It is submitted that copies of Gls. Rpts. Nos. 41078/9 should be forwarded to the Valparaíso Surveyor, in order that the remaining particulars may be filled in and a statement made that these boilers have been satisfactorily fitted on board the  
and safety valves adjusted under steam..
