Lloyd's Register of Shipping,

(JFH)

71, Fenchurch Street, E.C. 3.

10th December, 1924.

Dear Sirs,

S. I duly received your letter of the 2nd instant, respecting the classification in the Society's Register Book of your ferro-concrete barges "SKOGLAND I." and "SKOGLAND IV.", and note your remarks, which have received very careful consideration.

In view of the particular method of construction employed in these vessels, namely - ferro-concrete, the Committee regret that they are unable to accede to your wishes in respect of the survey of these vessels annually as it is considered essential that such vessels should be surveyed without fail every year, and for this reason their classification is subject to annual survey.

I am, Dear Sirs,

Yours faithfully,

Assistant to the Secretary.

Messrs. T. H. Skogland & Son, S/A.,

HAUGESUND, Norway.
